

The industry's #1 OEM repair information software

ALLDATA Repair puts the latest unedited OEM repair information right at your fingertips, covering more than 95% of vehicles on the road today.

Access OEM info for safe and accurate repairs

We publish OEM updates daily, so you always have the most current repair information for every vehicle that comes into your shop. Includes factory-required inspections, repair and maintenance procedures, diagnostic information, TSBs, DTCs, and more.

Stay up to date with the latest vehicle technologies

View original factory diagrams plus interactive color wiring diagrams. Quickly locate ADAS system or component locations and OE calibration requirements. See which repairs worked for your peers with Find-A-Fix and Community.

Easy to learn + best-in-class customer support

ALLDATA uses the same intuitive format for each manufacturer, making it easy to learn and simple to navigate. When you need help with hard-to-find information or to locate a procedure, our 'Library Request' team will respond in 30 minutes or less!
