

A simple management system for day-to-day shop essentials

Shop Manager is the perfect solution for shops that need an easy, efficient way to create and manage shop documents. Plus the advantage of seamless integration with ALLDATA's industry-leading OEM repair information*.

Quickly create repair documents

Easily add customer and vehicle info and create estimates, repair orders and invoices. Include parts & labor costs directly from ALLDATA Repair. Check open recalls and service history with Trusted Advisories/CARFAX.

Access to the industry's #1 OEM repair database

Since Shop Manager is part of ALLDATA's integrated technology platform, you can instantly toggle between your shop documents and the related information in ALLDATA Repair to connect your workflow.

24/7 Parts ordering and more

Check availability and order parts 24/7 from AutoZone and Nexpart Multi-Seller. Record payments on invoices, manage customer and vehicle records, pull basic sales, tax, and payment reports, and more.
