

POWER UP WITH CONFIDENCE

ENGINEERED FOR OE-OR-BETTER PERFORMANCE

Duralast®

STARTERS

- 100% new wear components
- Components tested for quality and durability to ensure part performance and reliability
- Remanufactured to meet or exceed OE performance

ALTERNATORS

- Engineered to meet OE performance and amperage output
- Remanufactured with 100% new wear components and high-quality materials

Duralast GOLD®

STARTERS

- Every unit built 100% new, not remanufactured
- Engineered to deliver torque output for starting power that meets or exceeds OE
- Solenoids, bushings, and all critical components made with proprietary designs and engineering to ensure maximum life and performance

ALTERNATORS

- 100% new units designed to meet the highest quality standards
- Engineered for amperage output that exceeds OE
- Made with proprietary components and processes to ensure maximum life and performance

INNOVATIVE DESIGN THAT CORRECTS FLAWS IN ORIGINAL EQUIPMENT

NATIONWIDE WARRANTY & ROADSIDE ASSISTANCE PROGRAM*

TRIPLE TESTED TO ENSURE OE PERFORMANCE

INTRODUCING

INNOVATIVE, OE-OR-BETTER DESIGN FOR LASTING POWER

MEETS THE DEMANDS OF MOST 2012 AND NEWER VEHICLES

NATIONWIDE WARRANTY & ROADSIDE ASSISTANCE PROGRAM*

100% NEW UNITS FOR OPTIMAL PERFORMANCE

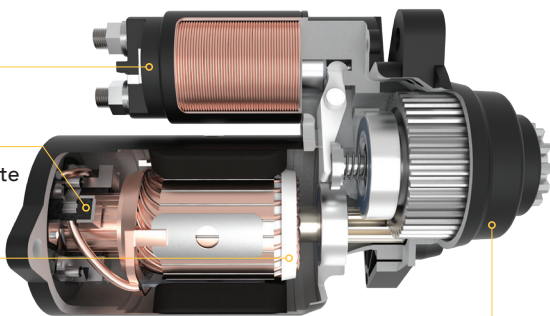

THE DIFFERENCE IS IN THE DETAILS

STARTERS

New nickel-plated solenoid contacts

Upgraded brushes with premium composite for better conductivity

OE-grade double-impregnation coating on armature

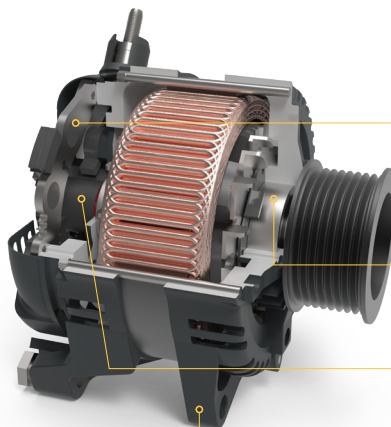

Powder-coated housing enhances airflow, protects against corrosion, and improves longevity

ALTERNATORS

Improved diodes are 20% more powerful than OE to help unit run cooler and longer

OEM-grade bearings with higher temperature seal

Tightened voltage tolerances for higher power and improved cooling
